

Hello Friends & Happy Earth Day! Here is an art activity you can do recycling materials found in your house. Let's make paper flowers!!!

**Materials:**

Coffee filters (cheap paper towels will work in a pinch)

Markers

Popsicle sticks (straws or pencils work too)

Buttons

Scissors

Glue or tape

Squirt bottle or eye dropper

Water

**How to:**

Color the coffee filter and popsicle stick with magic markers.

Be creative, be bold, be bright!

Spritz with water or use eye dropper. *(Make sure you have something under your filter, this can get messy.)*

Let dry completely.

Cut out whatever shapes you like.

Glue or tape on a button and/or a popsicle stick.

Display your beautiful flowers in a vase or on a window. Let the light shine through!

Send us a picture of your creations!!! [info@buckskids.org](mailto:info@buckskids.org).
